We are looking for a new PE Technician!

If you are technically well-founded and can see yourself in an international company in strong growth, then we have the job for you! As PE Technician you will be responsible for implementation of new customer products and ongoing improvements of processes and products for some of our existing customers.

Your primary tasks include among others:

- Customer contact in connection with advising and answering technical questions
- Advising customers regarding Design for Manufacturing with focus on mechanical assembly
- Preparation of parts lists, routes and documentation in proportion to introducing new products
- Ensuring the necessary product documentation is implemented and updated at all times
- Continuously drive improvement of processes and products in every step of the production flow
- Provide technical support to the production
- Handling of ECO’s (Engineering Change Orders)

We imagine that you have the following professional qualifications:

- Educated as Electronics Technician, Electronics engineer or similar
- Broad technical knowledge about electronics manufacturing
- Preferably experience from an EMS business or larger OEM business
- Experience with driving ongoing improvements on production processes
- Understand and able to adjust drawings
- Preferably knowledge of LEAN and modern production principles

- Can write and speak English effortlessly – it is a prerequisite that you speak and write Danish.
- Experience with MS Office programs and SolidWorks
- Experience with ERP systems, e.g., Axapta

As a person we emphasize that you......

- Can handle many tasks simultaneously without losing an overview
- Can work independently but also function well in a team
- Can work result oriented and be proactive
- Have a structured and systematic way of working
- Are a stable worker and are good at meeting deadlines
- Have a positive attitude and navigate well in changes
- Are willing to travel, as some travelling may occur.

Want to apply?

Please do not hesitate to reach out to us, if your qualification matches the above. Applications are to be sent to: HR@bbelectronics.dk. Please write “PE Technician” in the subject field. If you would like to learn more about the position, please contact Leif Saaby Hansen at lsh@bbelectronics.dk or ph: 2162 6290.

About BB Electronics

BB Electronics A/S was established in 1975 and is one of the leading service companies within electronics production in Scandinavia. We offer services within design for manufacturing, sourcing, production, test, box build and system integration, distribution, and after sales services. It is our vision to be Northern Europe’s leading EMS supplier of products within batch production of electronics. We produce for companies within a long range of businesses, e.g. industry, telecommunication, IT, medical, transportation and several niche industries. We employ around 600 employees, and our administrative head quarter is in Horsens, Denmark with production facilities in Suzhou, China, Lanškroun, Czech Republique and Horsens, Denmark.
